

# Building Protector

## Use an expert to protect your property.

When you buy a home, you have to plan for the future. With the right insurance, you can rest easy no matter what happens, knowing that your home is covered.

## Why you need a Buildings Protector.

Bricks and mortar

Covers the bricks and mortar, including fixtures and fittings, protecting you from the cost of damage to the structure of your home.

Unforeseen events

The cover includes protection against damage from fire, flood, storms and other unforeseen events.

Geysers damage

We provide total cover on geysers including bursting, wear and tear and resultant damage.

Competitively priced

Competitively priced with low excess options and many additional benefits.

Protects biggest asset

Protects your biggest asset from serious and extremely costly damage.

Accepted by all the banks

Our cover is accepted by all the banks so it will not delay your bond registration.

Buildings Insurance is a mandatory requirement for securing a home loan.
